

SAFE OPERATION OF THE DUNK TANK

- ★ Review all rules/instructions on tank – Contact Funtastix if there are any questions prior to use
- ★ It's best to fill the tank to the top or at least to 8" from the top
- ★ Only one person can be on the seat or in the tank at a time
- ★ Sit on the seat – NEVER STAND ON THE SEAT
- ★ Before getting onto the seat, check that it is securely locked in place
Use any additional safety latches if present
- ★ Enter tank by climbing up at the back of tank – Be very careful of any sharp edges or corners
- ★ Use handles to get onto seat but DO NOT HOLD HANDLES WHILE WAITING TO BE DUNKED
- ★ Do not hit target with hand – Use balls provided only
- ★ Once on seat, move as far forward as comfortable to avoid seat slapping into back
- ★ Lean forward slightly with hands on knees – **NEVER PUT HANDS UNDER SEAT!**
- ★ Once dunked, swim toward front of tank and stand up slowly to avoid hitting head or shoulder on seat
- ★ Reset the seat by carefully moving target arm back into place and locking seat
- ★ Use step to climb back onto seat or out of tank after ensuring that seat is securely locked in place
- ★ Add water to tank as needed
- ★ To prevent accidental drowning NEVER LEAVE WATER-FILLED TANK UNATTENDED
- ★ Drain water by turning valve located at bottom of tank ¼ turn counter-clockwise when done
- ★ **DO NOT ATTEMPT TO MOVE DUNK TANK ONCE IT HAS BEEN SET UP!**
- ★ **ADULT SUPERVISION IS REQUIRED AT ALL TIMES**
